

SANKALP JADHAV

Full Stack Web Developer

sankalpjadhav28@gmail.com • +91 7208258069 • Chembur, Mumbai • linkedin.com/in/sankalpjadhav28 • github.com/SankalpJadhav28

PROFESSIONAL SUMMARY

Results-driven BSc IT graduate (CGPA: 8.62) with hands-on full-stack development experience across React.js, Node.js, Express, and MongoDB. Delivered production-ready web applications during an internship and independently built a multi-feature health-tech platform. Proficient in responsive UI development, RESTful API integration, database management, and version control. Seeking a junior web developer role to contribute to scalable digital products.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), HTML5, CSS3, Python, C++	Tools: VS Code, Jupyter Notebook, Git, GitHub, Figma
Frameworks & Libraries: React.js, Node.js, Express.js	Platforms: Linux (Shell Scripting)
Databases: MongoDB, MySQL	Other: REST APIs, Responsive Design, UI/UX Prototyping

EXPERIENCE

Web Developer Intern | SyncEdge | Jul 2025 – Sep 2025

- Developed and deployed responsive front-end interfaces using HTML, CSS, and JavaScript, reducing page load inconsistencies across devices.
- Integrated PHP/MySQL backends with client-facing UI components, enabling seamless data flow for multiple web features.
- Managed source code and collaborated across sprints using Git and GitHub, maintaining a clean commit history throughout the 3-month engagement.
- Debugged cross-browser compatibility issues, improving rendering consistency and overall application stability.

PROJECTS

AI Content Calendar — Full Stack AI Web App • (In Progress)

Tech Stack: Next.js (App Router), TypeScript, Tailwind CSS, Groq API

- Engineered a full-stack AI-powered content planning tool using Next.js App Router and TypeScript, applying modern React patterns including server components and client-side state management.
- Integrated the Groq API to generate contextual social media content ideas on demand, enabling users to produce platform-ready copy in real time.
- Built an interactive calendar dashboard UI with Tailwind CSS, allowing users to visualize and organize scheduled content across a monthly view.
- Architected a clean, type-safe codebase with TypeScript across both frontend and API layers, ensuring scalability for upcoming Supabase auth and database integration.

Airline Management System

Tech Stack: SQL, PL/SQL, Figma

- Designed and implemented a relational database using SQL and PL/SQL, authoring optimized stored procedures and queries for high-volume data management.
- Automated itinerary organization and booking data processing via Linux shell scripts, cutting manual data-handling steps.
- Prototyped the full system UI/UX in Figma, delivering wireframes and high-fidelity mockups for an intuitive operator interface.

EDUCATION

Bachelor of Information Technology | CGPA: 8.62 / 10

Vivekanand Education Society’s College of Arts, Science and Commerce, Mumbai | Jun 2023 – Apr 2026

CERTIFICATIONS & TRAINING

React.js — Udemy (2024)

Python — Udemy (2026)

LEADERSHIP & EXTRACURRICULARS

Editor-in-Chief, “That’s IT” — IT Department Annual Tabloid

- Led a cross-functional editorial team to research, write, and publish the department’s annual technical magazine, coordinating contributions from 10+ student writers and designers.
- Oversaw end-to-end production — from content planning to final layout — delivering the publication on schedule with cohesive design and editorial standards.
